clean and coat news

Issue 110 March / April 2011

## Funnies

It's been a hectic week...

So put your feet up and have a relaxing weekend...

## Inspirational

When defeat comes, accept it as a signal that your plans are not sound, rebuild those plans, and set sail once more toward your coveted goal.

*Napoleon Hill*

## Did you know facts

The Hawk pump must be installed horizontal to its base for it to receive optimum lubrication. The first oil change must be carried out within the first 30 hours of working. Change the oil every 300 working hours. It is advisable to use Hawk non-foaming oil.

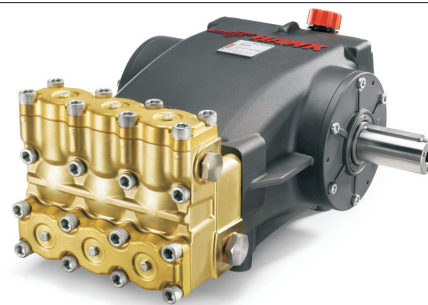

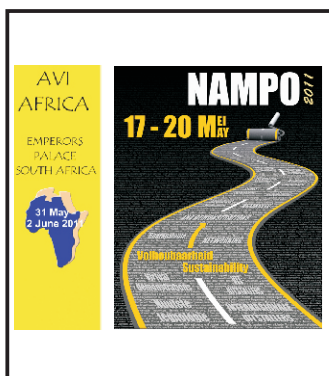

## HAWK PUMPS SOUTH AFRICA

Physical Address  
**Monitor Distributors cc**  
 336 Sydney Road,  
 Umbilo, Durban

## New and Improved Foamer

The new 24ltr compressed air operated foaming unit is specially designed for cleaning applications where it is necessary to apply thick volumes of foam. The unit is pressurised by a compressor (not included) and then it is wheeled around on the handy trolley to areas where it is required. The compressed air performs two functions. Firstly it pressurises the tank enabling the operator to dispense the chemical, and secondly it aerates the chemical turning it into a thick foam that is able to hang on vertical surfaces for longer periods of time, thereby increasing its effectiveness. The unit is extremely effective for degreasing applications.

## High Pressure Nozzles

The Spraying Systems MEG nozzle has been the industry standard for many years. The MEG nozzles are made from specially hardened stainless steel and have a patented "figure-of-eight" fitted into the back to prevent swirling - the impact of the jet is better when the spray has clean edges. The difference in spray quality is clearly visible in the photo comparing them with an opposition nozzle. The material of the MEG nozzles are also far superior to the oppositions and lasts longer.

## Trade Shows

### Nampo Harvest Day 2011 - 17th - 20th May 2011

One of the largest show of agricultural machinery, products and services in the southern hemisphere takes place outside Bothaville in the Free State. We will be exhibiting at the Caltex hall stand no. 36.

### AVI Africa 2011 - 31st May - 2nd June 2011

Avi Africa represents the premier poultry event in Africa where exhibitors will be demonstrating their latest products and technology. We will be exhibiting in Hall 6, stand nos 126&127 at Emperors Palace, JHB.

## Staff Corner

We bid farewell to a vital part of our sales team in DBN and JHB. Neville has been with Monitor in DBN for almost 18 years. We wish him well in his new ventures.

Amina has been managing the JHB internal sales department for almost 19 years. Anyone who has dealt with Amina will know her for her vast knowledge of our products and good sense of humour.

Iqbal was part of the sales team in JHB. He has proven himself as an excellent salesman. He is Amina's husband and we wish them all the best in their future plans.
