Issue 74 - November 2004

Hawk Clean 'n Coat is a division of 

Petrol High Pressure Cleaners

Hawk high pressure cleaners come in a range of low cost petrol units which are available in either a direct coupled high speed pump version or a slower speed pump using belts and pulleys to couple to the motor. The pressures range from the small 140 bar up to a 200 bar unit with volumes from 12 l/min to 18 l/min.

PETROL - Up to 200 bar
Medium Chassis

PETROL - Up to 200 bar
Small Chassis

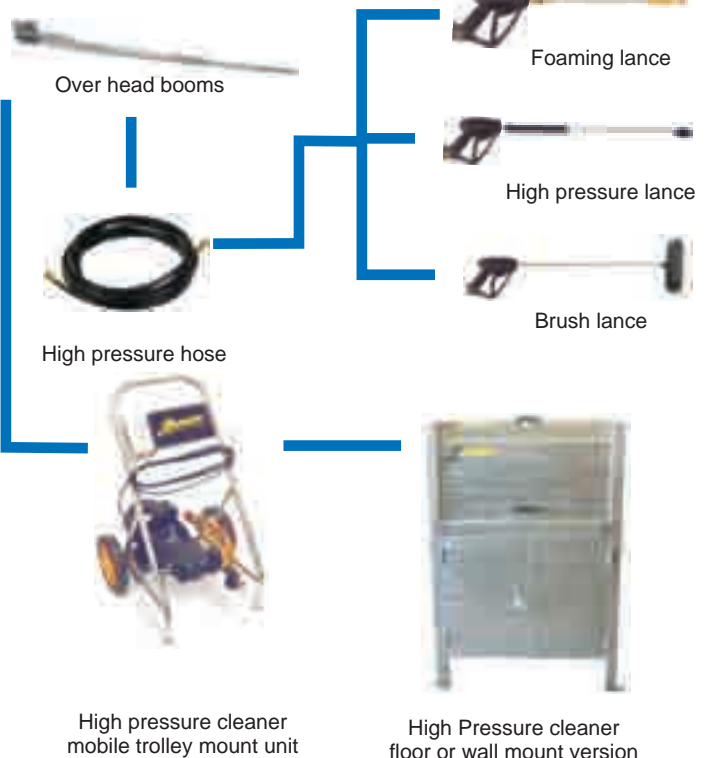

Customised Carwash Systems

The Hawk carwash system is available in several versions to suite any carwash from small to large truck washing installations. Options include coin, token or switch operation, chemical injection for foaming or wash and wax, overhead booms, undercarriage washers and watch out for our new range of vacuum cleaners that are arriving soon. The units are supplied in stainless steel cabinets or on mobile trolleys and can be customised to suite any installation.

Modular System
