Hawk Clean and Coat is a division of  **MONITOR**
DISTRIBUTORS CC

40th ANNIVERSARY

Monitor Engineering Company (Natal) Pty Ltd was formed by Ted Woodward on the 14th November 1966. The company was predominantly a "manufacturers representative" for companies like Spraying Systems, Skil (the original), Shopmate, Shopsmith, Toolkraft, Weller, and many more. Over the years this changed until in 1982 the tool division closed in order to concentrate on the industrial products. Gavin Pote, who had, coincidentally, joined Monitor on 14th November 1977 purchased Monitor Engineering (Natal) in 1983 and opened Monitor Distributors cc and Hawk High Pressure Pumps cc. J Wagner Spraytech in Johannesburg was bought out and this became the Johannesburg branch, having been renamed Hawk High Pressure Pumps.

We are proud to have reached the 40th year and judging from the current year, "we will be around for ever".

PENTA 27/500

Four of the five 27lit/min x 500 bar pump units ready for collection by the customer. These pumps are really catching on. They have solid stainless steel heads with five pistons. The Penta (5-piston) pump is extremely smooth as this is the most efficient configuration (remember the 5-piston Audi engine?).

HAPPY BIRTHDAY GAVIN

On the 21st November our M.D. Gavin Pote (the grey, balding git pictured) celebrated his 60th birthday. To show their love and support, the staff threw him a surprise party that really turned out well. Monitor would like to wish him good health, prosperity and happiness in everything he ventures.
